**98**

selling over 98 countries  
and regions

**16**

Being Industry model basing  
on creating 16 first-elevator-  
company in the world

KOYO Elevator Co., Ltd. established a modern production base in Kun Shan city, with total investment of USD130 million in 2002. KOYO is a professional designer, researcher, manufacturer, seller, installer and maintainer of elevator, escalator, passenger conveyor with more than 230,000 square meters land area. At present, KOYO combined with German technology, can produce up to 8m/s speed, 8 group-controlled elevator with 64 floors, 25 m rise height of escalator and 200m length passenger conveyor.

KOYO has cooperated with Suzhou University and Shanghai Jiao Tong University, and successfully researched and developed its own board and control system. Since being established in 2002, KOYO products have been sold well in Germany, France, Italy, America, UK etc. Sales network has reached to 98 countries and areas.

KOYO indraughts advanced fabrication process from Germany and use full-automatic metal plate production equipment. The manufacture of product strictly enforces CCC,GB,VDI, EN81,EN115,CE,TUV,IEC ect. KOYO has been awarded as Hi-Tech Enterprise by the government and also got ISO9001 quality standard certificate, ISO14001 Environmental Management System certificate, OHSAS18001 certificate by international Occupational Health & safety Management System.

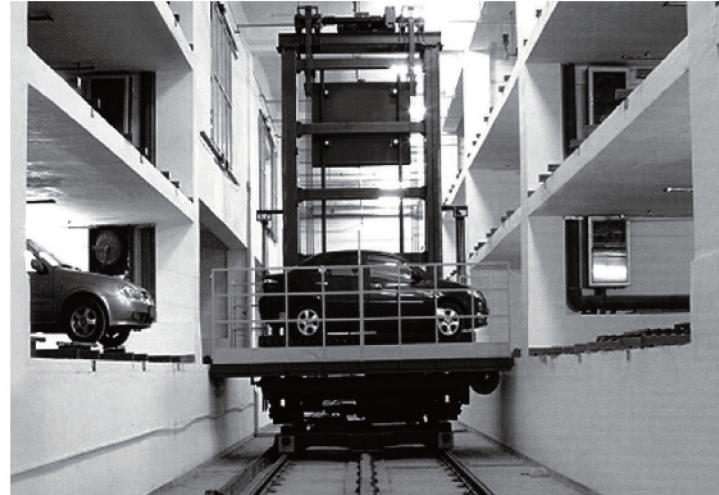

# Came into being Reshape the value of space

应运而生，重塑空间价值

城市化进程的推进，让城市空间越发拥挤；  
日益增长的停车需求，  
面临的却是难以满足的车位供给；  
通祐立体停车设备由此诞生，  
合理的结构规划、先进的功能配置，  
让停车变得简单一点。

Urbanization progress, so that more and more crowded urban space;  
Growing demand for parking,  
The face is difficult to meet the supply of parking spaces;  
KOYO three-dimensional parking equipment was born,  
Reasonable structural planning, advanced functional configuration, Make parking a little easier.

### 智能仓储式停车设备

智能仓储式停车设备能根据需要，利用智能搬运器将车辆移动到指定位置进行存取，空间利用充分，采用全智能自动化控制，运行平稳、定位准确，满足空间集约化的需求。

#### Intelligent storage parking equipment

Intelligent storage parking equipment can be used according to need, the use of intelligent transport vehicles to move to a specified location for access, space utilization, full intelligent control, smooth operation, accurate positioning to meet the needs of space intensive.

### 升降横移类停车设备

升降横移类停车设备利用载车板的升降和横移运动来存取车辆，一般为准无人方式，即人离开设备后移动汽车的方式。按其具体构造可分为二层、多层等多种形式，具有较高的空间利用率和灵活性。

#### Lifting and traversing type parking equipment

Lifting and traversing type The parking equipment uses the lifting and traversing movement of the board to access the vehicles. Generally, it is the unmanned mode, that is, the way of moving the car after leaving the equipment. According to its specific structure can be divided into two layers, multi-layer and other forms, with high space utilization and flexibility.

### 简易升降类停车设备

简易升降类停车设备通过载车板的升降进行存取车辆的操作，采用钢构式结构，操作简便，安全性高，使用寿命长，能与建筑物融为一体。

#### Simple lifting type parking equipment

The simple lifting type parking equipment accesses the vehicle through the lifting and translating movement of the car-board. It adopts the steel structure structure, which is simple in operation, high in safety, long in service life and can be integrated with the building.

### 垂直升降类停车设备

垂直升降类停车设备以升降机为核心，围绕中心的升降机每层可以布置 2 或 4 个甚至更多车位，可以满足地上或地下从 10 层车库到 25 层车库的使用需求，实现自动化快速安全存取。

#### Vertical lifting type parking equipment

Vertical lift type of parking equipment to lift as the core, around the center of the lift can be arranged on each floor of 2 or 4 or more parking spaces, to meet the ground or underground garage from 10 to 25 layers of the use of demand, to achieve rapid and secure automated access.

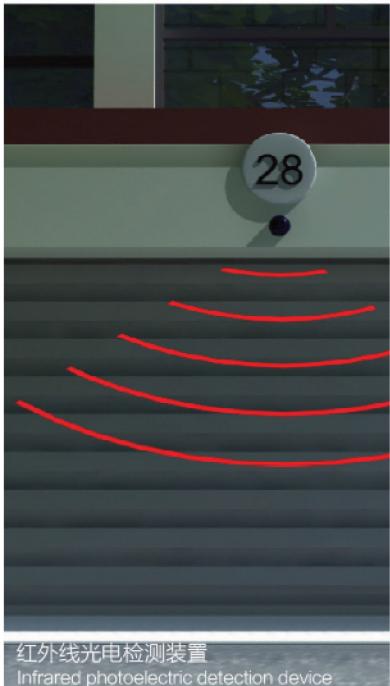

### 多层循环类停车设备

多层循环类停车设备通过载车板在两个或多个层门上作顺时针或逆时针的水平循环移动，利用两组车台升降动作，让车辆自由进出，操作简单，安全稳定，无需专人管理。

#### Multi-cycle type of parking equipment

The multi-layer circulating type parking device can move circularly or horizontally in the clockwise or counterclockwise direction through two or more doors of the car-board, so that the two vehicles can be moved in and out freely, and the operation is simple, safe and stable. Personnel management.

## 停车设备的二十项安全功能

Twenty safety features for parking equipment

通祐通过完善的安全保护装置和严密的安全措施，建立起一套面向人员、设备及车辆三方的安防体系，完全满足并高于 GB17907 标准。

KOYO through the perfect security protection devices and strict security measures, Establish a set of personnel, equipment and vehicles for the tripartite security system, Fully meet and higher than the GB17907 standard.

## 简易升降类立体车库

Simple lift type three-dimensional parking garage

简易停车设备，动作简单，安全可靠，操作便捷，造价低廉。链条驱动或油压双缸，运转安静运行平稳。该设备多用于企事业单位、家庭住宅和地下室等。

Simple parking equipment, simple action, safe and reliable, simple operation, while low cost. Chain-driven or hydraulic twin-cylinder, running quiet and smooth operation. The equipment used for enterprises and institutions, family housing and basement.

- 有效利用空间，空间利用率达数倍。
- 钢构式结构，使用安全，设备使用寿命长。
- 采用十多种安全装置，使设备安全运行。

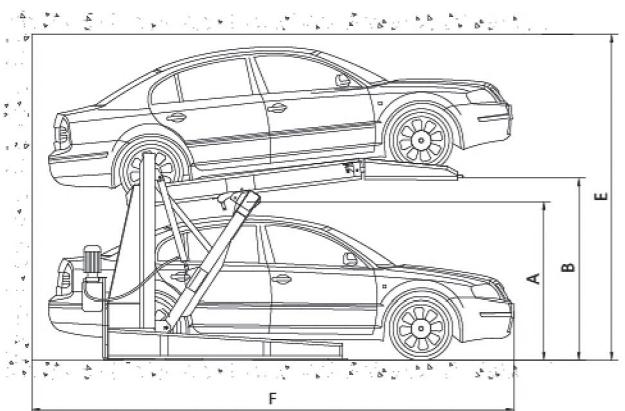

- With effective use of space, the space utilization rate is increased by several times.
- Steel structure, safe operation, long service life of equipment.
- With the introduction of a dozen of security devices, the equipment can run smoothly.

## 平面移动类立体车库

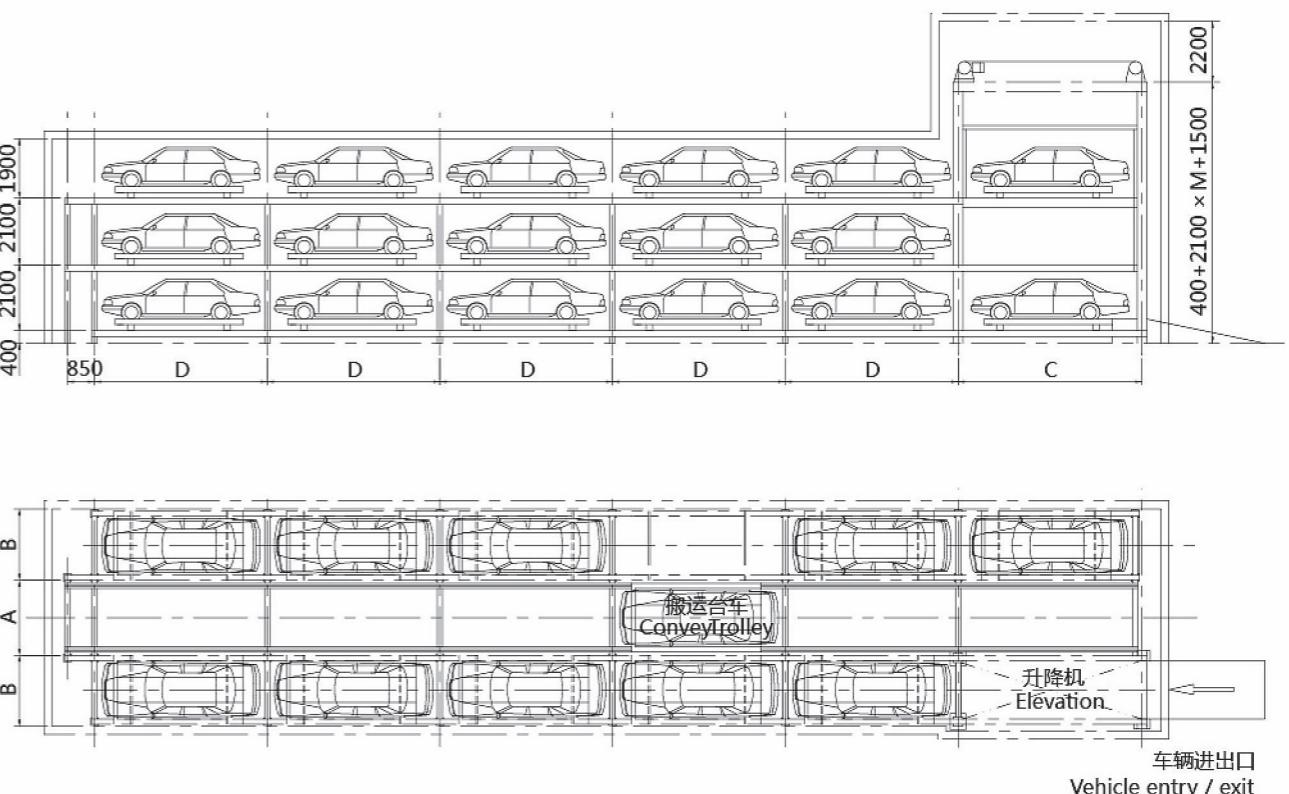

Plane Shifting Mechanical Parking System

- 无需坡道，节省占地，容车密度大，可以最大化提高土地利用率。
- 自动存取，存取车快捷，一次按键即可完成存取车。
- 设有安全保护装置，使用安全可靠，避免各种意外发生。

- Without ramp way, it can save space; with large storage density, it can improve land utilization to the largest extent.
- With automatic vehicle parking and withdrawing system and quick control, single touch on button can complete vehicle parking or withdrawing.
- Equipped with safety protection, it is safe and reliable, and can avoid all kinds of accidents.

操作方式 Operation method	触摸屏 / 刷卡 Touch screen / swing card	
电源容量 Power capacity	动力用电: AC380V 50HZ 15KVA	

## 升降横移类停车设备

Lift-sliding Mechanical Parking System

- 模块化设计，安装灵活，使用范围广；
- 优质钢材结构，安全可靠、经久耐用；
- 设有防坠落、上下限位等装置，运行安全可靠；
- 空间利用率高，可成倍提高停车数量，适合小区配置、地下车库增容改造。
- Modular design, flexible installation, wide application;
- Quality steel structure, safe, reliable and durable;
- Fall-resistance, upper and lower limit, safe and reliable operation;
- High space utilization, doubled the parking numbers, suitable for communities and enlarging underground garage.
